Kuiper System License Application, IBFS File No. SAT-LOA-20190704-00057
Application for Modification of Authorization for the SpaceX NGSO Satellite
System, SAT-MOD-20200417-00037**

Dear Ms. Dortch:

On May 20, 2020, representatives of Kuiper Systems LLC, a wholly owned subsidiary of Amazon.com Services LLC (collectively, “Amazon”), spoke by telephone with Federal Communications Commission staff. The participants included Aaron Goldberger of the Office of Chairman Ajit Pai and Julie Zoller, Kalpak Gude, Darren Achord, and Mariah Dodson Shuman of Amazon.

We discussed the status of the pending license application for the Kuiper System and restated our concerns with the space safety risks posed by the recent license modification proposed by Space Exploration Holdings, LLC (“SpaceX”), which have not been adequately addressed.¹

Please feel free to contact me with any questions regarding this submission.

Respectfully submitted,

/s/ Mariah Dodson Shuman
